

2008 Dialysis Facility Report Documentation

Details and Abbreviations

The ASCII file is comma delimited with the variable names in the first line.

Item refers to the letter number of the item in the Report.

In the data dictionary below:

F = Facility Value

N = Network Value

S = State Value

US = US Value

AFS = Source is Annual Facility Survey

FF = Source is The CMS Fistula First - National Vascular Access Improvement Initiative

2728 = Source is Medical Evidence Form 2728

SIMS = Source is Standard Information Management System

OSCAR = Source is OSCAR database
